SUMMARY

As a frontend developer with an advanced Web Developer Bootcamp completed at Spiced Academy and over three years of experience in JavaScript-driven automation, I bring extensive expertise in developing workflows and scripts for customized actions. A solid background and successful experience in system administration complement my technical profile, underscoring my ability to tackle complex technical challenges effectively.

EXPERIENCE

VMWare Automation Developer

Poinart Consulting 09/2021 - 02/2024 Bad Salzuflen, NRW

- vRealize Automation & Orchestrator: Creating cloud templates, Orchestrator workflows, and actions using JavaScript.
- Implementation and maintenance of the company website using HTML, CSS, and JavaScript, including regular content updates through a content management system.
- Operation and monitoring of the on-premises server IT infrastructure in VMware.

Working student

Data Center of Clausthal University of Technology

01/2019 - 03/2020 Clausthal-Zellerfeld

- TYPO3 Developer for the TU Clausthal-Zellerfeld Website
- Collaboration with the frontend team using HTML, CSS, and JavaScript

EDUCATION

Bachelor of Science in Information Technology

Azad University of Sanandaj 2007 - 2012 Iran

MY PROJECTS

Flavion

04/2024 - 07/2024 Bad Salzuflen

https://flavion.vercel.app/

A platform for culinary discovery that allows users to explore and share unique flavor combinations. Users can submit their own suggestions, browse recommendations, and create a personal collection of their favorites.

- Project execution through the implementation of React in a Scrum Agile workflow.
